June 21, 2019

Dear Manufacturer Licensee:

During the 2019 legislative session the Wyoming Legislature passed Senate File 0140 to become Enrolled Act No. 54. This new law will allow those manufacturer licensees that also hold a satellite manufacturer permit to transfer their manufactured product from the manufacturer's production site to the satellite location **IF** the satellite location is situated within the property boundary of the manufacturing site. This will eliminate the need to ship your manufactured product that will be sold in your satellite location to the Wyoming Liquor Division. We have created a form for your use to make this transfer and remit payment to the Division. You will be responsible for the 17.6% mark-up and the excise tax. Be sure to e-mail the form to both e-mail addresses listed to be sure that your submission is processed in the most expediant manner. We are attaching a form for your use so be sure to make copies. We will also have this form posted on eliquor. As always you can also contact us at the Division with any questions.

Sincerely,

A handwritten signature in black ink that reads "Thomas J. Montoya".

Thomas J. Montoya
Chief of Enforcement
